## About Us

---

Established in 2010, Dynamic Energy was conceived as a Saudi Services and Material Supplier to both the Upstream and Downstream sectors of the Oil & Gas, Petrochemical and Power industry within Saudi Arabia and neighbouring Gulf States.

Through our multiple international alliances with reputable technology partners and manufacturers, our offerings have grown rapidly since Dynamic Energy's inception.

We are continuously seeking out the latest technology applications in the Oil & Gas industry and strive to localize the manufacturing of such technologies in the Saudi Market.
